

ESSENTIAL Nursing Resources

EDITED BY JANET G. SCHNALL AND JUNE LEVY

for the Interagency Council on Information Resources in Nursing (ICIRN)

THE 25TH EDITION OF THE ICIRN *Essential Nursing Resources* list (formerly *Essential Nursing References*) is presented as a resource for locating nursing information and for collection development. The list includes print and electronic sources to support nursing practice, education, administration, and research activities. The most recent editions or websites are included. The list was compiled to point to pathways for exploration, rather than be an end point, and to expand to other formats beyond traditional references. A new section in this edition is Cultural Competencies. Databases and citations marked **\$\$\$** indicate availability via subscription or through a library.

This list was compiled from the contributions of the following representatives of the Interagency Council on Information Resources in Nursing (ICIRN) member agencies: Richard Barry, Leslie Block, Warren G. Hawkes, Suzanne Hermann, Wanda Hiestand, Susan Kaplan Jacobs, June Levy, Susan Pierce, Diane Pravikoff, Juliette Ratner, Janet G. Schnall, and Annette Tanner. *Essential Nursing Resources* may also be accessed at the ICIRN website, along with more information about ICIRN: www.icirn.org.

DISCLAIMER: *All information contained on this list is intended for informational and educational purposes. References should not be considered an endorsement, but represent the opinions of the contributors only. All information was current at the time this list was published. Copyright © 2009 by ICIRN.*

DATABASES AND INDEXES

Access to specialized databases is available from academic, hospital, and other libraries, including members of the National Network of Libraries of Medicine (NN/LM), nlm.gov. Access these databases via library website or directly from vendor. Also, contact local health sciences library or closest Regional Medical Library (800/388-7657). For access to US National Library of Medicine (NLM) databases, check the NLM website at www.nlm.nih.gov/databases/. Full-text journal collections and bundled resources of databases/scholarly journals/magazines/multimedia/evidence syntheses are marketed as point-of-care resources to libraries, not nurses; representative collections are listed here. Obtain the full text of articles — both print and online — via institutional libraries, professional memberships, personal subscriptions, and some websites.

CORE NURSING AND HEALTH CARE DATABASES

\$\$ CINAHLPlus Database EBSCO. Covers nursing, biomedicine, health sciences librarianship, alternative/complementary medicine, consumer health, and 17 allied health disciplines. Provides indexing for >4,180 journals; contains >2.3 million records dating back to 1937, with complete coverage of English-language journals and publications from National League for Nursing and American Nurses Association. Also offers access to health care books, book chapters, pamphlets, nursing dissertations, selected conference proceedings, standards of practice, education software, and audiovisuals. Full-text material includes 77 journals plus clinical innovations, critical paths, research instruments, evidence-based care sheets, quick lessons, and clinical trials. More than 1,404 indexed journals in CINAHLPlus have searchable cited references; subject access available via CINAHL Subject Heading List. The CINAHL database covers 2,968 journals. Full-text versions available for both CINAHLPlus and CINAHL databases. www.ebscohost.com

MEDLINE/PubMed National Library of Medicine. Contains >18 million references to articles published in >5,200 current biomedical journals from the United States and 80 other countries. Covers virtually every area in the broad field of biomedicine, including bioethics, health administration, toxicology, nursing, nutrition, pharmacology, medicine, psychiatry, medical engineering, and pathology, from late 1940s to the present, with some older material. Available via many online vendors, each with its own search interface, most with access to online full text of selected journals. Searching is free using NLM PubMed at: <http://pubmed.gov>

NLM Gateway National Library of Medicine gateway.nlm.nih.gov/gw/Cmd Gateway searches PubMed, LocatorPlus, MedlinePlus, and many others noted at www.nlm.nih.gov/pubs/factsheets/

RELATED / SPECIALIZED DATABASES

Nursing research and publications may be found in a variety of databases; consult with your local librarian about your topic.

AgeLine American Association of Retired Persons (AARP). Social gerontology and the study of aging in social, psychological, health-related, and economic contexts, covering 1978 to present. Includes journal citations as well as citations from books, book chapters, and reports. www.aarp.org/research/ageline/

\$\$ BNIPlus (British Nursing Index) Bournemouth University, Poole Hospital NHS Trust, Salisbury NHS Foundation Trust, and the Royal College of Nursing. Includes >220 nursing/midwifery and health-related journals with strong UK coverage, 1987 to present. Online and on CD-ROM. www.bniplus.co.uk

Cancer Topics National Cancer Institute. Up-to-date information about various cancers, treatments, and research for the public and health professionals. Includes PDQ Cancer Information Summaries. www.cancernet.nci.nih.gov/cancertopics/

CDC Wonder Wide-ranging online data for epidemiologic research. Single point of access to a variety of public health reports and data systems, both local and external, categorized by topic. <http://wonder.cdc.gov>

Education Resources Information Center (ERIC) Sponsored by Institute of Education Sciences of the US Department of Education. Bibliographic database includes >1.1 million citations going back to 1966. Free access to >107,000 full-text, nonjournal documents. www.eric.ed.gov

\$\$ EMBASE Elsevier. Includes citations and abstracts of biomedical and pharmaceutical literature from >19 million indexed records from 7,000+ peer-reviewed journals, covering 1947 to date, many not covered in MEDLINE. EMBASE.com adds citations from MEDLINE journals not in EMBASE, including nursing titles. www.embase.com

Google Scholar Useful adjunct to specialized databases. Searches scholarly sources such as academic publishers, government-supported research databases (e.g., PubMed), university websites, and professional association websites. Another useful feature is the citation count for articles retrieved, ranking results by number of times cited. <http://scholar.google.com>

Nursing Point-of-Care Resources

Your institution may subscribe to a “point of care” resource for nurses that provides access to journal articles, drug and disease information, care plans, diagnostic tests, procedures, skill sheets, evidence summaries, reference tools, continuing education, and patient education information. Following are some representative examples; nurses should assess contents when using as “one-stop shopping.”

\$\$\$ Clin-guide Nursing Advisor “Synoptic reference content” for nurses in the areas of drugs, diseases, diagnostic tests, treatments, and signs and symptoms; includes evidence-based nursing monographs; separate subscription also accesses portal to Nursing@Ovid (article citations based on the nursing and allied health subset of Ovid MEDLINE). www.clineguide.com/index.aspx

\$\$\$ Lippincott’s Nursing Procedures & Skills More than 900 evidence-based procedures and skills, with references that show the evidence on which the procedure is based; includes skills checklist, competency tools, and color visuals www.lwwnursingsolutions.com/content/lippincott’s-nursing-procedures-and-skills/

\$\$\$ Mosby’s Nursing Consult Elsevier. Integrated resource searching across nursing books, journals, drug information, patient education handouts, news, evidence-based monographs, images, practice guidelines, and skills. Access to MEDLINE and Mosby’s Index. www.nursingconsult.com

\$\$\$ Mosby’s Nursing Skills Elsevier. Online skills references system featuring >830 interactive skills from five highly respected reference texts: Perry & Potter’s *Clinical Nursing Skills & Techniques*, Proehl’s *Emergency Nursing Procedures*, AACN *Procedure Manual for Critical Care*, AACN *Procedure Manual for Pediatric Acute and Critical Care*, Wong’s *Nursing Care of Infants and Children*. www.mosbysnursingskills.com

\$\$\$ Nursing Reference Center EBSCO. Provides access to nearly 2,500 Evidence-Based Care Sheets and Quick Lessons plus patient education materials in English and Spanish, practice guidelines, drug information, legal cases, full-text reference books, research instrument records, free continuing education modules, and the latest medical news; separate subscription also accesses CINAHL databases. www.ebscoweb.com

Meta-sites for Evidence-Based Nursing Practice
